U.S. Senate Candidate Marielena Stuart Gives Impassioned Speech to Villages Residents Tuesday

ARTICLE | FEBRUARY 8, 2012 - 10:39PM | BY HANNAH DUSHANE

Don Eaton of the Conservative Liberty Alliance thanks Florida Republican Senate Candidate Marielena Stuart Tuesday night after her address in The Villages.

“I am in a fight to save the nation, and the only candidate to fight for true values,” declared Marielena Stuart while speaking to the Conservative Liberty Alliance in the Villages on Tuesday night. The CLA, a group focused on traditional American principles, hosted Mrs. Stuart, a candidate for the Florida U.S. Senate. Despite lacking notoriety in the race, the candidate’s speech resounded with the audience who admired her “authentic conservatism.”

Stuart, who grew up in Cuba and later immigrated to the United States, decided to join the race while fighting sustainable development in southwest Florida. In her battle with lawmakers she was horrified to observe the beginnings of communism, which she experienced in Cuba. Her desire is to attack the “death, deceit, and lies” she observed in America’s structure.

Asserting that she is the only authentic conservative in the race, Stuart highlighted her bona fide values. If elected, Stuart promised to fight for the unborn and uphold traditional family values, including marriage between one man and one woman. As a homeschooling mother, she believes in the importance of education and desires to initiate reform in educational structures. Stuart believes that “morals and finances can’t be separated,” and to see reform in one, change must be brought to the other. Therefore, she stated her desire to oversee an overhauling of the federal tax code and initiate a balanced budget amendment.

When asked her stance on immigration, she responded by stating, “I am against amnesty because it is a mockery of we who have waited years [to enter the U.S.]” Citing her experience as a columnist on multiple international subjects, she asserted that she was the “only candidate to denounce farcical parliaments of the Middle East.”

She believes in a strong military and criticized the current administration for its policy on military affairs. Due to her upbringing in communist Cuba, Mrs. Stuart recognized the need of a capitalistic society and promoted her desire to re-privatize government organizations.

Vowing for term limits, whether Constitutionally or self imposed, she said “I would only serve two terms if you gave me the privilege to represent you in the U.S. Senate.”

She affirmed her passion to fight the “socialist abyss” she has observed. If elected she promised to make her statement a reality that the United States “could be the most energy independent, wealthy nation in the world.”

The candidate continually avowed her stance to fight socialism, and place the United States as the leading nation in the world.

The Republican primary will be held August 14, 2012 and the winner will face incumbent Democratic Senator Bill Nelson.
